

# Fluid Fax server

Go green with the ideal fax gateway solution for Windows 7, Vista, XP, 2008, 2003, 2000

## Save time and money with network faxing

Fluid Fax server saves time and money by allowing users to simply send and receive faxes from their desktops.

## Cost of manual faxing

### Tasks

- print the document.
- walk to the printer.
- walk to the fax machine.
- write out the cover sheet.
- type the fax number and press Send.
- stand around to confirm delivery.

Takes around **FIVE** minutes per fax.

### Costs

If a person is paid \$12 to \$18 per hour, then cost of manual sending the faxes is around \$1 to \$1.50 per fax. This is without considering the cost of printer toner and paper.

Faxes/day	Cost / day	Cost / week	Cost / year
10 faxes	\$10	\$50	\$2,600
50 faxes	\$50	\$250	\$13,000
